SCHOOL DISTRICT GOALS AND OBJECTIVES

District Performance-Based Management Plan

In embracing the District Performance-Based Management plan that links district goals to performance standards and quality indicators, the Providence School Board intends to establish a meaningful and measurable framework for achieving the district's vision, fulfilling its mission, and accomplishing its goals.

Goals

- 1. Student Achievement**
Increasing Student Achievement through a consistent and comprehensive focus on teaching and learning.
- 2. Building Capacity through an Infrastructure of Support**
Creating capacity within the system to support and nurture a continuous learning environment focusing on student achievement.
- 3. Strengthening Parent and Community Engagement**

Standards

1. There are significant gains in student achievement for all student populations resulting from a system wide focus on high quality teaching and learning.
2. The system effectively and efficiently supports high quality teaching and learning to improve student achievement.
3. The system is designed to facilitate and support a high-performance learning organization.
4. The system is data driven and accountable.
5. There is an adequate and equitable distribution of resources to support the work required to improve student achievement.
6. Parents and community members are meaningfully engaged in support of quality teaching and learning and improved student achievement for all Providence students.
7. Communication is clear, consistent and comprehensive.
